Abhay Verma

Associate Software Engineer
abhayverma.dev@gmail.com Contact No. - 8580714580

EDUCATION

Lovely Professional University Phagwara, Punjab, India
Master Of Computer Applications - CGPA – 8.91/10 *2022 - 2024*
Govt Post Graduate College Bilaspur, Himachal Pradesh, India
Bachelor Of Science – CGPA – 9.17/10 *2019 – 2022*

EXPERIENCE

Associate Software Engineer Sep 2024 – Present
Tech Mahindra *Bangalore, India*

- Completed training in ASP.NET core MVC, Web API, ReactJs
- Developed and contributed to the Movie Management project, an ASP.NET Core based movie platform.
- Implemented core features such as user authentication, property listing, and admin verification workflows.
- Worked with SQL databases, caching mechanisms, and RESTful APIs to enhance application performance.
- Gained hands-on experience in ASP.NET Core, MVC architecture, and backend development best practices.

Tech Stack: C#, ASP.NET core MVC, Entity Framework core, React Js, MS SQL Server

CERTIFICATION

AWS Certified Cloud Practitioner, Verification no. - 464985e098fd450bb7431b286cce5867 Issue Date – June 2025
AWS Certified AI Practitioner, Verification no. - 5a58d2770ad1466a8da2cb30cc4b16f5 Issue Date – Nov 2025
AWS Certified ML Engineer – Associate, Verification no. - c26e4088b4454ee7b98e6bedd77abeff Issue Date – Oct 2025
Microsoft Certified: Azure Data Fundamentals, Credential ID: C8C20FBFC8C28EO2 Issue Date – Nov 2025

PROJECTS

Easy Clipboard (karcopy.netlify.app) Github | *React, Firebase*

- Built a real-time clipboard sharing application using React and Firebase for text synchronization across multiple users and devices.
- Implement room-based architecture with password protection, including validation logic to prevent duplicate rooms and unauthorized access.
- Optimized performance using debounced database writes and real-time listeners, reducing unnecessary network calls and ensuring smooth user experience.

Movie Hub | *ASP.NET Core MVC, SQL Server, Bootstrap*

- Developed a comprehensive movie management application using Asp.Net Core MVC, Razor pages providing a user-friendly and interactive frontend design.
- Enabled users to search for different movies seamlessly, offering features such as selecting genres, reviews and rating. Integrated SQL Server for db management, ensuring seamless CRUD operations and search functionality.

Anonymous Chat Application | *React, Firebase and Git*

- Engineered a dynamic and secure anonymous chat application utilizing Firebase, React for the frontend, delivering seamless and engaging user experience.
- Developed robust real-time messaging features, ensuring efficient and smooth communication between users.
- Implemented strong security measures to maintain user anonymity and protect data integrity.

TECHNICAL SKILLS

Programming: C++, C#, Java, Python, JavaScript

Technologies & Tools: AWS, Git, Linux, React.js, Micro-Frontend ASP.NET core MVC and Web API, Entity Framework core, MS SQL Server
